

Stainless steel and copper mosaics offer a contemporary spin on the classic mosaic wall or backsplash. Available in brushed finishes, these exclusive ANN SACKS tiles provide a beautiful and dramatic backdrop to any room.

Product Usage and Additional Information

Stainless steel and brass can be used in both vertical and horizontal applications. Copper is recommended for vertical use only as field. May be used as accents in the floor. All can be used in wet areas such as showers or water features. Use non-sanded grout. Stainless tiles cannot be cut. Use finishing piece for seamless installation. Copper and brass pieces can be cut with a hacksaw or dremmel tool. Clean with warm, soapy water.

- comes on facemounted sheets
- stainless steel is highly durable
