

We have collaborated with the renowned Sausalito, California ceramics studio to produce the Heath bath accessories collection exclusively for ANN SACKS. Accented with birdseye maple and available in a fine stoneware body, this collection exhibits the quality that has been the cornerstone of the Heath brand for over 50 years.

Maintenance & Important Considerations

- All stoneware pieces are dishwasher safe and acid resistant. Hand-washing with mild cleanser is also acceptable.
- Wood items can be hand-washed with mild cleanser and hand dried. Do not put wood items in dishwasher.
- Wood items are finished with a durable water-based polyurethane spray finish.

Collection
