

Luna is the result of an innovative collaboration. Erin Adam's signature glass is inset into our Inca 100% recycled aluminum or brass making a bold and uniquely modern statement. The luster of metal is made all the more brilliant with the color and reflection of the glass. This program is truly unique and available exclusively through ANN SACKS®.

Product Usage and Additional Information

Suitable for residential and commercial wall applications. Not suitable for flooring, or wet areas. Exterior use subject to climate and should be in covered dry area.

- metal finishes and glass inset colors can be mixed and matched as desired
- use Pattern Specification Sheets to specify pattern and color placement for easy customization
- netted for ease of installation, or loose upon request
- coordinates beautifully with our Inca and Erin Adams mosaics collections
